"The value of rabbinic literature for biblical studies has long been recognized by many scholars," writes the author. "But due to the vastness of this field and the paucity of good works in English, the Bible student finds difficult a firsthand study of this literature."

This index to the New Testament and the Mishnah will greatly reduce the difficulty. It guides the user to more than 2,500 cross-references between the books of the New Testament and the tractates of the Mishnah. These references are listed in two sequences: first the New Testament books in canonical order, then the mishnaic tractates in alphabetical order.

The Bible student who possesses this index and one of the two commonly available translations of the Mishnah—that of Herbert Danby or that of Philip Blackman—will be able to read the New Testament in the light of mishnaic literature.

A basic working knowledge of the Mishnah, Jewish patterns of thought and methods of interpretation, and the early rabbinic view of the Old Testament will greatly enhance this avenue of study. A bibliography at the conclusion of the author's introduction identifies the best introductory works in the field.

**Charles R. Gianotti**, who holds the Th.M. degree from Dallas Theological Seminary, is a systems analyst and programmer with Priority Systems.

# Acknowledgments

I would like to express my gratitude first to Allen P. Ross of Dallas Theological Seminary, who opened my eyes to the value of rabbinic literature. Many other people have helped with this project, including fellow students at Dallas Theological Seminary: John Calvin, Phil Congdon, Tom Lewellen, Colin Peters, Brian Schmidt, and Ronald Shive. Their help in compiling the index is greatly appreciated. The project would have taken much longer without the computer system provided by Priority Systems of Irving, Texas, which I used for editing, sorting, and typesetting. Thanks go also to Alan Cavin and Greg Sonnentag of Priority Systems for their technical assistance. I especially thank my wife, Mary, for her patience and for painstakingly rechecking each entry.

Most especially I thank my Lord Jesus Christ, for it is only because of Him that I am even concerned about a more accurate understanding of His word. "Unto Him be glory" (Eph. 3:21).

### Introduction

The value of rabbinic literature for biblical studies has long been recognized by many scholars. But due to the vastness of this field and the paucity of good works in English, the Bible student finds difficult a firsthand study of this literature. The index below is designed to make easier a study of the New Testament in light of the Mishnah.

Though the term *mishnah* may refer to various concepts or entities (such as a single statement of law or a collection of such statements), we are concerned here with a specific collection of Jewish writings: "a deposit of four centuries of Jewish religious and cultural activity in Palestine, beginning at some uncertain date (possibly during the earlier half of the second century B.C.) and ending with the close of the second century A.D. The object of this activity was the preservation, cultivation, and application to life of 'the Law' (Torah), in the form in which many generations of like-minded Jewish religious leaders had learnt to understand this law." Herbert Danby's *Mishnah* and Philip Blackman's *Mishnayoth* are English translations of this work.

The Mishnah's value to the Bible student lies in its expression

<sup>1.</sup> Herbert Danby, in The Mishnah (London: Oxford, 1933), p. xiii.

Introduction 10

of rabbinic thought during the time of Christ and the early church, a knowledge of which helps one to understand the teaching and events of the New Testament.

The following pages correlate New Testament passages with related ones in the Mishnah. This correlation is based on Hermann Strack's and Paul Billerbeck's Kommentar zum Neuen Testament aus Talmud und Midrasch, a German commentary on the New Testament in light of the Mishnah and other early Jewish literature. The index below includes all of Strack's and Billerbeck's references to the Mishnah in commenting on the New Testament. Thus the English-speaking student may benefit from their insight and perception. A note of caution is necessary. Strack and Billerbeck made their correlations for various reasons—lexical, historical, cultural, and general interpretative considerations. While most correlations are obvious, some are not.

The student should have a basic working knowledge of the Mishnah, Jewish patterns of thought and methods of interpretation, and the early rabbinic view of the Old Testament. Without this the value of a study based on this index is greatly reduced. The bibliography below lists several good introductory works.

The format of the index is simple and uses the standard biblical and mishnaic systems of reference. Note that the index is listed in two separate sequences: first the New Testament books in canonical order, then the tractates of the Mishnah in alphabetical order. Thus the index goes "both ways."

#### Texts

- The Mishnah. Edited and translated by Herbert Danby. London: Oxford University, 1933. Contains only the English translation, making it less expensive than the edition that follows.
- Mishnayoth. Edited and translated by Philip Blackman. 3d ed. 7 vols. New York: Judaica, 1965. Contains the (pointed) Hebrew text along with an English translation and notes. Volume 7 contains indexes of Scripture (Old Testament) and topics. The publisher has also issued a one-volume edition.
